Two OSCs on in Durango – one in Silverton plus two more on the way. Two PIOs are also on site in Durango. The region has tapped into several contracting mechanisms to provide support for water quality sampling, drinking water and agricultural water distribution. At the Gold King Mine site EPA has the support of several contractors to build and maintain 4 water treatment ponds. Several response support positions that will be deployed to Durango on Monday. In the Regional office in Denver, there are 16 employees and one contractor providing support services to the response.

Let me know if the 16 includes me, deb mckean, etc. and others or that's just your EOC people...
